Date of Original Entry Armed Forces (DEAF) Impact on Retirement

RETIREMENT ISSUE

- **Currently <u>three</u> retirement programs in effect**
- **Marines eligibility for a specific program based on DATE OF ORIGINAL ENTRY ARMED FORCES (DEAF)**
  - Prior to 9 Sep 1980 50% High One Day
  - 9 Sep 1980 - 31 Jul 1986 50% High Three Yrs
  - Since 19860801 may elect REDUX at completion of 15 yrs active service

Date of Original Entry Armed Forces

- **Many DEAF dates in MCTFS are believed to be *WRONG for most officers who entered via Naval Academy or NROTC and many enlisted Marines with broken service***
- DEAF is first date the individual signs an enlistment contract (or accepts an appointment) in any branch or component of the armed forces

Date of Original Entry Armed Forces

- ***DEAF is based on service that <u>may not</u> be creditable towards PEBD***
  - DEP
  - Service Academy
  - ROTC
    - **May be from freshman year for scholarship program**
    - **May be from beginning of junior year for other ROTC programs**

Date of Original Entry Armed Forces

- **Any time served on any reserve contract establishes a DEAF date**
- **DEAF is *NOT* adjusted for breaks in service, time lost, etc.**
- DEAF seldom equals PEBD on Marines entering the service on/after 1 Jan 1985 (reservist 28 Nov 1989)
  - Most cases it is an earlier date
- Never equal for Naval Academy/NROTC
  - Always 4 or 2 yrs ahead of PEBD

RETIREMENT ISSUE

- **New legislation requires that REDUX eligible Marines (DEAF on/after 1 Aug 1986 and completion of 15 yrs active duty) be afforded to opportunity to elect…**
  - **50 pct retirement at 20 years**
  - **40 pct retirement at 20 years with payment of $30,000 bonus at the 15 yr mark**
    - **This is 20 percent reduction in retired pay**
- ***Election is IRREVOKABLE***
  - **First elections will be accepted 1 Aug 2001**
  - **First payments will be made 1 Oct 2001**

RETIREMENT ISSUE

- **Regardless of election, Marines who stay for 30 yrs service will still get 75 percent of "high three" retirement**
- **REDUX election also decreases future COLA's by 1 percentage point**
  - **Non REDUX would have rec'd 1.5 pct last yr**
  - **REDUX bonus would only get .5 pct**
    - **That is only 33 pct of normal COLA in this case**
  - **Readjustment at age 62**
  - **After readjustment 1 point rule continues**

RETIREMENT ISSUE

- **Services must notify eligible Marines six months prior to completion of 15 yrs active service when DEAF is on after 1 Aug 1986**
  - **Advise them to run the numbers and consider carefully**
- **If the Marine takes the money**
  - **Marine must complete 20 yrs active service**
  - **Failure to complete will result in partial recoupment**
    - **Payback is based on the entire amount**
    - **Not the 'after tax' amount**

RETIREMENT ISSUE

- **To ensure that these Marines are properly notified of eligibility…**
  - **DEAF MUST BE CORRECT**
  - **AFADBD MUST BE CORRECT**
- **Proposed system edits to generate payment also require these items be correct**
- **During audits please ensure these items are looked at closely**

RETIREMENT ISSUE

- **HQMC is going to require audit of all DEAF dates to support new REDUX legislation**
- **Encourage all your Marines to verify their DEAF**
  - **Can be done via Marine On Line**

PERSONNEL DEPLOYMENT Tempo (PersTempo)

This is a draft project for SR 2-00. All information is tentative in nature and subject to change without notice.

Personnel/Deployment Tempo

- ***This project is congressionally mandated in 10 USC 136(d), etc.***
- This law requires the services to track personnel tempo within the service
- Two types of PersTempo
  - Deployed Tempo
  - Non-Deployed Tempo

Personnel/Deployment Tempo

- PersTempo is a Congressional mandate to track all time that a service member is not able to spend the night residing in quarters due to official duties
  - BOQ/BEQ
  - Base Housing
  - Off Base Housing

Personnel/Deployment Tempo

- Items to be tracked include but is not limited to:
  - Duty
  - Field training at PDS
  - Any TAD
  - Any Deployment (not necessarily what is considered a deployment by most Marines)

Personnel/Deployment Tempo

- Deployments divided into four types
  - Major Exercise
  - Contingency Operation
  - Training Exercise
  - Mission Support TDY that support basic mission of the unit
- <u>May not be performed at PDS</u>
  - If conducted at PDS will be considered a non-deployment form of PersTempo

Personnel/Deployment Tempo

09/14/16

- Marines who are in a ‘deployment’ tempo status (DepTempo) must be tracked closely
- At the following ‘gates’ approval to remain in a deployed status is required as follows…
  - Periods over 182 of prior 365 days require general officer approval
  - Periods over 220 of prior 365 days require ACMC approval
  - Marines deployed for 251 or more days out of the prior 365 days are entitled to a new type of Per Diem
    - New period begins daily

Personnel/Deployment Tempo

- Marines must be approved by USMC general officers to be deployed in excess 182 or 220 days out of preceding 365 days
  - Must be in USMC chain of command
  - Cannot be the CinC or JCS chain
- Navy personnel must be approved by appropriate Navy flag officer

Personnel/Deployment Tempo

- *Payment of $100/day per diem for all Marines deployed over 250 of prior 365 days begins 1 Oct 2001*
  - In addition to other per diem
  - In addition to all other entitlements
  - Payment is for 251st day and while in a deployed status
    - Not deployed, no money, regardless of counter

Personnel/Deployment Tempo

09/14/16

- Four new transactions for manpower
  - YYYYMMDD STRT TEMPO RUC XXXXX DEP TYPE XXX ESTM DYS NNN
  - STOP TEMPO TYPE XXX ED YYYYMMDD
  - CRED TEMPO RUC XXXXX TYPE XXX YYYYMMDD TO YYYYMMDD
  - CHEK TEMPO YYYYMMDD TO YYYYMMDD

Personnel/Deployment Tempo

- Type Code determines how day is counted
  - DepTempo counts towards $100/day eligibility
  - Other PersTempo types do not count towards $100/day
    - numerous types
    - includes codes to capture data for “on base” deployments

Personnel/Deployment Tempo

09/14/16

- Deployment Categories Proposed by OSD
  - Deployments (Counts towards $100/day):
    - Operations (including being TDY to the operation)
      - Contingency (DAA)
      - National Emergency (DAB)
      - War (DAC)
      - Counter Drug (DAD)
      - Law Enforcement Operation (DAE)
      - US Domestic Civil (DAF)
      - Humanitarian (DAG)
      - Peace Keeping (DAH)
      - Surveillance (DAI)
      - Forward Presence (DIO)

Personnel/Deployment Tempo

09/14/16

- Exercise (includes being TAD to exercise)
  - Joint/Combined (DBJ)
  - Service (DBK)
  - NATO (DBL)
- Unit Training (away from PDS)
  - Combined Training Center (DCM)
  - Training Area (DCN)
- **Mission Support TDY** (includes anything supporting overall mission of the organization, may not be a deployment in the classical sense of the word.)
  - No subcategories (DDZ)

Personnel/Deployment Tempo

09/14/16

- Non-deployments (Does NOT count toward $100/day entitlement)
  - Individual Training/School TDY (NEZ)
  - Home Station Training (NFZ)
  - Duty in Garrison (NGZ)
  - Hospitalization (except while deployed) (NHZ)
  - Discipline (NIZ)
  - ITD (Reserve drill away from HTC) (NJZ)
  - Muster Duty (IRR) (NKZ)
  - Funeral Honors Duty (Reserve away from HTC) (NLZ)
- Hospitalization and Discipline can be derived from the TO SK, TO IHCA, IHFA, and TO CNFT statements.

Personnel/Deployment Tempo

- We are anticipating a 25 percent increase in the number of transactions reported into MCTFS as a result of this legislation

Personnel/Deployment Tempo

09/14/16

- M&RA's intent is to replace ADT transactions with PersTempo/DepTempo transactions
  - Awaiting policy decisions on ADT
  - ADT portion of SCR May not go until SR 1-01
- Pertains to reservist as well as active duty
- May be required to report on 'Non-Marines'
- Anticipate detailed guidance will be published during Sep 2000

Personnel/Deployment Tempo

- Tracking Requirement begins 1 Oct 00
- Majority of PersTempo project will go into production with SR 2-00, which will be later in the month
  - Manual tracking will be required for the first part of Oct 2000
  - No time prior to 1 Oct 2000 will be recorded or reported

Personnel/Deployment Tempo

09/14/16

- Consider this…
  - Marine completes 250 consecutive days
    - Is sent back to PDS
    - Any day Marine deployed away from the PDS for next 115 days will cost command $100/day extra
    - From the 116th day after return and for the next 250 days if sent back on deployment (with no intervening periods of deployment) the Marines DepTempo counter will remain at 250

Personnel/Deployment Tempo

09/14/16

- Due to one day dropping and one day being added to the counter for next 250 days
- Net gain of zero until all the first 250 consecutive days have dropped off

Personnel/Deployment Tempo

- Marine does 60 non consecutive DepTempo days during first five months of year (starting score of zero presumed)
- Does seven consecutive months during remainder of year (210 days)
  - Will rate 20 days of per diem during first year
  - This is $2000 in addition to all other entitlements

Personnel/Deployment Tempo

- During the second year does exactly the same thing… day for day
- Will Never have DepTempo counter fall below 270. (If actual day for day match in DepTempo the counter will remain at 270 for the entire year)
  - Will cost $27,000/Marine during second year
  - Over $24Million for an 850/Marine Battalion

PERSTEMPO Deployment Problem

- Given
  - Deployment Start: 20000320
  - Days: 180
- Marine has
  - 245 deployment days built up as of 20000320
- Question is...
  - Will Marine break 250 during the proposed deployment?
  - How much will it cost?

PERSTEMPO Deployment Problem

- In this example we will say the Marine has the following Deployment PersTempo days on file…
  - 19990101-19990908 (250)
  - 19990920-19991003 (13)
  - 19991201-20000131 (61)
    - Total days on 20000320 = 245
    - (250-79+13+61)=245

PERSTEMPO Deployment Problem

  - Projected total on 20000916 = 254
    - Based on looking at all periods on file from 19990918-20000916
    - (180+13+61)
- What day is the first day the Marine rated $100/day…
  - During deployment score will range from 245 to 254

PERSTEMPO Deployment Problem

- Score will remain at a constant 245 through 20000907
  - Old days from year old deployment will drop off on 1 for 1 basis through that date
  - Score will increase by 1 per day through end of deployment until the next batch of days begins to drop off file or the deployment ends

PERSTEMPO Deployment Problem

- Score will reach 251 on 20000913
  - Deployment will end 20000916
  - Marine will receive $300.00.
- ***NOTE: ALL DATES IN THIS EXAMPLE ARE BOGUS.***
  - *NO DAY PRIOR TO 20001001 WILL BE COUNTED FOR ANY PERSTEMPO (deployment or non-deployment)*
  - *NO MONITARY ENTITLEMENT FOR DAYS PERFORMED PRIOR TO 20011001*
    - *Days accumulated during FY01 will count for determining eligibility for payments in FY02 for the days the Marine is deployed beginning in FY02*
